## TOWN WARRANT

## THE STATE OF NEW HAMPSHIRE

**To the Inhabitants of the Town of Deerfield in the  
County of Rockingham in said State, Qualified  
to vote in Town Affairs:**

You are hereby notified to meet at Town Hall in  
said Deerfield on Tuesday, the thirteenth day of March,  
next, at nine of the clock in the forenoon, to act upon  
the following subjects:

Article 1. To choose all necessary Town Officers for  
the year ensuing.

Article 2. To raise such sums of money as may be  
necessary to defray town charges for the  
ensuing year and make appropriations of  
the same.

Article 3. To see if the Town will raise and appropri-  
ate the sum of \$3,000.00 to be expended on  
Mountain Avenue the State to contribute  
\$6,000.00 and the Federal Government \$9,-  
000.00

Article 4. To see if the Town will raise and appropri-  
ate the sum of \$965.90 for Town Road Aid  
the State to contribute \$6,439.31.

Article 5. To see if the Town will vote to instruct the  
Selectmen to hire money in anticipation of  
taxes.

Article 6. To see if the Town will vote to authorize the Selectmen to sell property acquired through Tax Collectors Deeds.

Given under our hands and seal this first day of February, in the year of our Lord Nineteen Hundred and Fifty Six.

CARL M. FOGG,  
ROBERT B. SANBORN,  
HOWARD P. KING,  
Selectmen of Deerfield.

A true copy of Warrant—Attest:

CARL M. FOGG,  
ROBERT B. SANBORN,  
HOWARD P. KING,  
Selectmen of Deerfield.

## REPORT OF THE SCHOOL BOARD

January 31, 1956

To the voters of the School District of Deerfield,  
N. H.:

As the basic part of our annual report, we submit for your consideration and decision our proposed budget for the ensuing fiscal year from July 1, 1956 to June 30, 1957, inclusive. We hope that it deserves and will receive your approval.

It proposes an appropriation of \$42,028.75 which is an increase of \$883.65 over the appropriation of \$41,145.10 for the current fiscal year.

An analysis of, and comments concerning, the provisions of the proposed budget should be of interest and help.

In preparing it we have been guided by our fundamental duty to provide for the pupils the best teachers, the best educational program, and the best physical facilities, attainable from the funds at our disposal; and to secure for them the maximum funds for which we can reasonably ask. Also we have been guided by another duty. This is a duty to the tax-payers; and in this connection we have endeavored in their interests to keep the budget total as low as is consistent with the best interest of the pupils. We have done our utmost to fulfill these duties. We believe that we are as eager as anyone to provide the best for the pupils despite the heavy cost. However we also believe that unfortunately we cannot realize all our ideals at once; that, under the conditions as we see them we must approach our goal more slowly than we would wish; and that in any one year we should only ask the tax-payers for the money which we can reasonably expect them to furnish. No one would be happier than we if a far larger amount than we have requested should be

made available to us.

Some of the items in the proposed budget are mandatory, and the expense involved is entirely beyond our control. They are: the State Tax of \$330.00, based on 165 pupils (133 elementary school and 32 High school) at \$2.00 per capita; payment of \$2000.00 towards the amortization of our bonded debt for school construction; payment of \$650.00 for interest on that debt; payment of \$13,000.00 for tuition of our high school pupils.

Other items are also mandatory, and the expense involved is largely, although not entirely, beyond our control. They are: the payment of \$6,500.00 for transportation of elementary pupils to and from school; payment of \$403.78 for fire insurance, treasurers bond, and related expenses; payment of \$928.00 for teachers' retirement fund; payment of \$429.82 for our share of the superintendent's salary; payment of \$129.00 for our share of the salary of the superintendent's secretary; and payment of \$132.00 for our share of the rental of the superintendent's office.

These mandatory items total \$24,501.60 which is a major portion of our budgetary expense.

Next to the amount for tuition of our high school pupils the largest item in our proposed budget is that of \$12,225.00 for salaries of teachers. With the exception of \$400.00 for the slight increase of \$100.00 for each of four teachers this total may reasonably be regarded as a fixed charge; and thus is virtually beyond our control as the appropriation of \$11,825.00 for the current year obviously cannot be reduced under existing conditions.

These mandatory and fixed charges total \$36,726.60, or over 87% of the proposed budget. There are 12 other items; and the appropriation requested to cover them amounts to \$5,300.15 or about 13% of the entire requested budgetary appropriation. In only 4 of these

11 items is an increase asked. The increase is \$525.00; and is due to higher costs of study books; reference books, pamphlets, and other texts; paper, pencils, and other stationery supplies; maps, rental of films, and other instructional materials; and janitorial supplies.

We receive revenue from sources other than the tax levy. Such sources include: income from trust funds; the National School Lunch Program; State Aid; tuition of pupils from other school districts; sale of property; and others. We do not, of course, receive revenue from all of these sources every year. Thus far this year we have received revenue only from the first two mentioned sources. Such revenue is not in addition to the budgetary appropriation. It is deposited by the School District Treasurer; and a like amount is deducted from the funds which we otherwise would receive from the tax levy under our budgetary appropriation. A recently enacted state law provides that after July 1, 1956 a School District will receive payment of tuition for each of its pupils who is a state ward—such payment to be made by the School District from which such ward was transferred. This is another potential outside source of revenue.

The Advisory Budget Committee has carefully scrutinized this proposed budget, and will doubtless advise you regarding its conclusions. We take this occasion to express our high appraisal of its efficiency.

In addition to strictly budgetary matters there are other matters on which we report or comment for the interest and information of parents as well as of other citizens.

We are glad that, for the first time in many years, all of our teachers returned this year. We regret that we will not be so fortunate for the coming year. One of our teachers plans to study at Boston University in preparation for teaching in a foreign country. Another may be unable to secure from the State Department

of Education an extension of the temporary certificate by virtue of which that teacher has been permitted to teach during the past two years. Both of these teachers are highly qualified; and it will be difficult to replace them at a salary within our means. We believe that the other two teachers will remain despite the smallness of the proposed salary increase.

Deerfield and other small towns must compete with towns and cities which offer higher salaries to teachers. However we will do the best with what we have to offer.

The grading and proper development of our playgrounds should be undertaken with the least avoidable delay. The boys and girls should have the fullest possible aid in their play and recreational facilities and activities. We will do what we can to make some improvement this year with the small amount of money at our disposal.

Many Deerfield citizens have generously transported pupils to athletic games and to outings, as well as to social affairs, arranged by the school or by individual teachers. One teacher entertained a large group of pupils during a week-end at that teacher's camp near the Franconia Notch.

The Parent Teachers Association has been helpful in many ways. Its contribution of funds for the Dental Clinic for the pupils has been valuable. Also it is endeavoring to provide, as a gift to the school, a sink and bubbler in the first and second grade room.

The Deerfield Woman's Club has given funds for the Dental Clinic; has previously contributed several hundred dollars for important betterment of the new schoolhouse; and has otherwise cooperated.

Both organizations have furnished transportation for the pupils who have been treated at the Dental Clinic.

The American Legion Post, aided by other organizations and by individuals, financed, arranged, and conducted for us a highly successful Christmas Party at the School. The program, which included well-selected gifts for the children, was hugely enjoyed by the pupils, their families, and their friends. For several years the Legion has presented similar parties and its experience has made it peculiarly qualified for this worthy activity.

The Woman's Relief Corps presented to the School a beautiful American Flag in memory of Martha C. Innes who had been a prominent officer of that organization.

We are hopeful that the School may receive the gift of a New Hampshire State Flag to be displayed as a companion to the other.

The pupil enrollment has grown to such an extent that our school-rooms are over-crowded. The average number of pupils per room is about 35; and in one room there are 41 pupils. The maximum number recommended by the State Department of Education is 25. The present situation is not satisfactory; but it has not yet reached the critical point. However, we must as a matter of precaution, consider ways and means of adding new school-room space to meet the school population increase which may be expected in the not distant future.

The hot lunch program has been admirably conducted by the supervisor. We would find great difficulty in securing another as good.

The janitorial service has been, in our opinion, outstandingly excellent.

We sincerely thank the Superintendent of Schools, all of the teachers—the special and the substitute teachers as well as the full-time teachers—the school nurse, the supervisor of the hot lunch program, the janitor, the School District Officers, the Town Officers,

the operators of the buses in which our pupils are transported to and from school, the Deerfield organizations and people whose support and cooperation have heartened and helped us in our work.

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

February 1, 1956

To the Members of the School Board:

In presenting my ninth annual report of the George B. White School may I also add my thanks to those who have been generous and kind as well as desirous of improving the educational development of the town.

For the first time within my brief position as the superintendent of schools, it was unnecessary to replace any teachers. I think you will find this is also true over a longer period of time. Mrs. Brooks, Mr. Griffin, Miss Converse, and Mrs. Stevenson all returned to their same positions a second year. This, in my opinion, was a step in the right direction and both the Board and the taxpayers are to be commended for making this possible by the substantial increase in salaries.

As you have discovered in the past and will find in the future, there are three items which increase each year. In fact, if you study the records you will note that there was a time not too many years ago when the entire budget could be included in one or two of these present three items. I am referring, of course, to

Teachers' Salaries, Tuition, and Transportation. These items alone for 1956-57 will amount to \$31,725.00. And it is almost impossible to do anything about it. Probably the prime factor which is responsible for the continued increase in the school budget year after year is the increase in enrollments. Added to this is the fact that since Deerfield is required by law to belong to a Supervisory Union of districts in the State, other items must be shared with these districts including the pressure of salaries and administration. May I state at this time, however, that I believe the increase of less than \$1000 over last year's budget has been a fine piece of work in view of the fact that the price of materials and the cost of living have increased sharply.

We are facing the greatest shortage of teachers in the history of education in America. Suppose we cannot find enough qualified teachers for your school next year for the salaries you are willing to pay? Suppose that two and possibly three or four of your teachers did not return to the school in the fall? I am assuming that you realize what a situation of this kind will have on the continuity of education in the town. Teachers, parents, and children get to know and understand each other when a teacher—even an average one—does not return for a second or third year. These are your children; they represent the parents and citizens of the town.

According to figures received from the Department of Education a short time ago, there will be but 110 elementary teachers who will graduate from all the colleges in the State in June. There are 50 superintendents in the State, to say nothing of those who will come from other states nearby. The average superintendent will need from 15 to 30 teachers. It does not take too much figuring to see what is going to happen. For the past two years this Union, No. 53, lost nearly twenty teachers to Manchester and other cities and larger towns, due for the most part, to salaries. You

can readily understand also that if other districts in this Union will pay more money, Deerfield or any other district paying low salaries will be forced to hire the poorer teachers.

You may think that what has been said is more or less fiction. Let me show you on the following schedule what the situation is in this Union for next year.

District	Teachers	Enrol'm't	Salaries		
			Low	Median	High
Allenstown	3	62	\$2950	2950	3450
Candia	10	248	3000	3200	4000
Deerfield	4	142	2700	2900	3100
Hooksett	17	420	3000	3350	4000
Pembroke	12	331	3000	3400	4200
Raymond	15	370	3000	3400	4800
Pem. Academy	11	220	3000	3600	4600

As you have seen, much time and space has been spent in this report concerning the need and understanding of the teacher problem. However, this problem and other similar problems will be solved in stride if we can face and solve the real problem in education today—the problem of helping the public to understand the nature and size of modern educational challenges.

People who think and believe that this problem can be solved at the local or state level are, for the most part, people who think that our present system of education is adequate in a rapidly changing atomic age. We are facing conditions in our schools for the next few years where budgets will be expanded out of all proportions to the taxable valuations of property and many communities will be unable to cope with our building and teacher problems as well as other vital problems.

Why have we come to our present situation? First of all, probably, is the fact that it is the great American effort to educate everybody and to continue educa-

tion for as many people as possible even to the higher levels of learning. However, those who believe that education for all is education for none seize upon our occasional failures, blow them to large proportions, and then use them to frighten and put doubts in the minds of the people with regard to the whole American system of education. The fact of the matter is that America has done what no other country in the world has ever done before and done a great job.

A second problem is the problem that presents the argument over progressive education. Modern education has made an attempt to apply the method of science and research to the problems of educational practices. Highly specialized and narrow-minded individuals have distorted what modern education is attempting to do honestly and scientifically. All this is confusing to the public.

A third factor cannot be overlooked. It is within the profession itself. No one can become a doctor without studying anatomy and learning a great deal about the physiology of the human organism. But a person can become a university teacher merely by studying mathematics and English literature although he may know nothing about the people he is to teach and very little about the teaching process. Nevertheless, as the owner of a PhD degree he feels qualified to speak as an expert on education.

Finally, the education profession must share a considerable part of the blame for the public's lack of understanding. Probably the greatest single obstacle to getting the educational program we need is the fact that not only the public, but also a large proportion of the teaching profession believes that our present education is adequate for the needs of the atomic age. The professional educator cannot escape the responsibility of having let the public oversimplify and underestimate its educational problems.

Let us look back for a moment to the end of World War II. When this war closed we could reflect upon two discoveries which were a legacy from the war period and the preceding decades. The first was the power of the atom. The second is the power of education. Hiroshima and Nagasaki showed us the power of the atom. Mussolini, Hitler, and Stalin demonstrated the power of education.

Our program in America has been all out for the power of the atom; no expense held too great; no uncertainty; no hesitation, no bottleneck. In education, the last ten years have been the most hesitant of the last century. There is no national program; it has suffered devastating attacks; it has been torn by conflicts over philosophy, program, and the responsibility of financial support.

While we moved forward at full speed on the means of destruction, we hardly have held our own in education which is the only means we have of so changing human beings that the weapons of self-destruction will not be used.

We need to understand and have understood the great need of education today before we can get the necessary financial means for making it realistic. Money and time is being spent year after year in our inability to solve the problem of peace, of the corruption of government, and of the delinquency of youth. We need a new education—one which is magnificent in design and dynamic in action. This too, will cost money, a great deal of money. It cannot be done by retrenchment or "holding the line;" nor can it be done by wild spending with no knowledge of the values for which we are striving. It can be done by an attempt by all the citizenry to understand the many problems of education in a Democracy. Education means freedom and freedom is everybody's business.

Again may I caution that what is being done in

school meetings all over the State in March will reflect and produce the kind of education of the future.

May I thank you for permission to place before the people of the town one or two of the problems and forces which are basic to education today.

Respectfully submitted,

MURRAY H. WATSON

Grand Total	<hr/> \$41,400.74

## EXPLANATION OF PURCHASES UNDER ITEM NUMBERS .

Items 1, 2, 3, and 4 are self explanatory.

Item 5, includes expenditures for travel, telephone, and for supplies of materials used for administration as well as freight and cartage thereon. The usual supplies are ink, carbon paper, printed forms, vouchers, ledgers and other materials which once used are actually consumed, or do not last more than five years.

Item 6, includes teachers' salaries, plus withholding tax, retirement, Blue Cross, etc.

Item 7, includes cost of books for pupils, cost of films, film strips, pictures, charts, maps, photograph records, sheet music, globes, small musical instruments, and other instructional aids that last more than two years.

Item 8, includes workbooks, tests, chalk, ink, pencils, pens, fasteners, carbon paper, rubber stamps, typewriting supplies, magazines, newspapers, etc.

Item 10, includes diplomas, expenditures for graduation, speakers, repair and replacement of maps, reference books, flags, flag ropes, flag staffs, rentals of instructional materials, testing services, travel, and telephone service, and freight and cartage on the same.

Items 11 and 12 are self explanatory.

Item 13, includes light bill, janitor's supplies; for example, electric light bulbs, toilet supplies such as soap, paper, towels, sweeping compounds, brooms and mops.

Item 14, includes painting, replacing broken windows, and all repairs to mechanical equipment such as plumbing, heat, light, ventilation, and repairs to pipe lines, and heating plants. It includes repairs to equipment not built into the building such as desks, chairs, projector, etc. Also includes all labor not performed by regular custodial staff.

Item 15 includes all expenditures for medical, dental, and nurse service in the nature of inspection, first aid, weighing, etc.

Items 16 and 17 are self explanatory.

Item 18 is the hot lunch program.

The balance of the items are understandable, with the possible exception of Item 23, which includes portable blackboards, bookcases, chairs, desks, filing cabinets, refrigerators, etc.

PRESTON B. WARES,

J. W. ADAMS,

LUCY W. MULLER,

School Board.

#### AUDITOR'S CERTIFICATE

This is to certify that I have examined the books and other financial records of the school board of Deerfield, New Hampshire, of which this is a true summary for the fiscal year ending June 30, 1955, and find them correctly cast and properly vouched.

WILLIAM C. MAXWELL,

Auditor.

Deerfield, N. H.

July 1, 1956
